PROJECTS

Mentora – Smart Tutoring Platform

2026

- Built a full-stack tutoring platform supporting 20+ courses across multiple user roles.
- Implemented optimized API queries and a relational database schema for efficient data retrieval and scalable backend performance.
- Integrated an AI-powered course recommendation engine that analyses student learning patterns and suggests personalized study paths, improving engagement and completion rates.

Stack: Node.js, Express, PostgreSQL, React (Next.js), AI/ML (Recommendation Engine)

SmartClinic – Digital Clinic Automation System

2026

- Built a full-stack clinic management system for a private medical practice covering patient records, appointments, consultations, prescriptions, and billing – with JWT authentication and role-based access control for Doctor and Receptionist roles.
- Includes an AI Assistant (Doctor-only) powered by Gemini API for querying live clinic data through natural language.

Stack: Next.js (TypeScript), Spring Boot (Java), PostgreSQL, REST APIs, JWT, Tailwind CSS, Gemini API

Mentora Student App

2026 – Ongoing

- Developing a mobile application (Android & iOS) for the Mentora platform, allowing students to browse courses, manage enrollments, and view lessons using the existing Mentora backend.

Stack: Flutter, Node.js, Express, PostgreSQL

AES Glove – IoT-Based Smart Rehabilitation Wearable Glove

2025

- Built an IoT-enabled smart rehabilitation glove integrating multiple biosensors (flex, EMG, force, heart rate) with an ESP32 microcontroller.
- Streamed real-time patient data via WebSockets to a web platform, supporting remote monitoring and data-driven physiotherapy.

Stack: ESP32, Embedded Systems, Sensor Integration, WebSockets, Node.js, MongoDB, HTML/CSS/JS

UMISF Official Website

2026

- Contributed to frontend development of the official website for the UMISF Badminton Championship organized by the University of Moratuwa.
- Enabled player registration, tournament management, and tournament participation through a responsive web interface.

Frontend: React.js, React Router DOM, Material UI, Ant Design, CSS

EXTRA-CURRICULAR ACTIVITIES
